## THE VOTE ON TARIFF AND SILVER.

The House of Representatives consists of 356 members, who are entitled to vote, and four delegates from Territories, who are not entitled to vote. On the tariff bill, which has just passed the House, 343 voted, 13 members not being present. An analysis of the vote by party division shows that 193 Democrats, 7 Populists, 2 Republicans and 1 Independent—Ken of Nebraska—voted for the bill, and 122 Republicans, 17 Democrats and one Silver man—Newlands of Nevada—voted against the bill.

The present Congress voted on an amendment for the free coinage of silver at the ratio of 16 to 1, and an analysis of the vote shows that 100 Democrats, 13 Republicans, 10 Populists and 1 Silver man—Newlands of Nevada—voted for the bill, and 110 Democrats and 109 Republicans voted against it. Fifty-four per cent of the Democrats and 89 per cent of the Republicans voted against free coinage and 46 per cent of the Democrats and 11 per cent of the Republicans in favor of it.

As the Republican leaders of Nevada claim that their party is in favor of silver remonetization, while only 13 of the 127 members of the party vote for it in Congress, it will now be in order for the Democrats to organize in Nevada as the "party of protection," and as proof that they mean it point with pride at the 17 Democrats in the House of Representatives who voted against the Wilson bill.

Phineas T. Barnum, the greatest showman of the age, stated, after his retirement from the circus business, that the American people liked to be humbugged and were willing to pay handsomely for being deceived. Certain politicians, who hereabouts dwell, doubtless heard of Barnum's remark, but, however that may be, they are acting upon his theory and endeavoring to make it appear that a party which acknowledges Senator Sherman as its greatest leader and only gives 11 per cent of its votes for silver is in favor of free coinage. Though they may delude the unsophisticated with their sophistry, they are discovering the truth of the saying of President Lincoln: "That you can fool all of the people some of the time and some of the people all the time, but you can't fool all the people all the time."

## NEVADANS IN THE DEPARTMENTS.

According to the rules governing the employment of clerks in the departments at Washington Nevada is entitled to eleven positions, if the applicants are qualified to fill them under the regulations of the civil service. The apportionment is based upon the population of the several States, hence the small number assigned to Nevada. Land Agent Van Duzer has ascertained that though Nevada is entitled to only eleven clerkships in the departments there are actually thirty-five holding positions who are accredited to this State. Of these only two ever saw Nevada, though a third one, a relative of the late Governor Nye, has some claims on the State by reason of that relationship.

It is asserted that there are a number of persons in this State who have been examined as to their qualifications for positions in the Government service and successfully passed the examination. If such is the fact, and those persons have applied for clerkships in the departments and have been refused by reason of Nevada's quota being filled, they have just cause for complaint.

A few years ago, when Nevada was prosperous, few, if any, would accept positions in the departments at Washington. Now, owing to the Wall Street combination, our brightest young men and women are not only willing, but anxious, to get positions at from \$60 to \$100 per month as government clerks. Such being the case they should have all the appointments to which the State is entitled that they are qualified to fill.

## Factories Resuming.

Some of the factories which closed last year on account of the unprecedented financial depression caused by the contraction of the currency are resuming operations. The Saugatuck Manufacturing Company of Connecticut, which started up a few days ago, feel that they will be able to run forty-eight hours a week, and conduct the business with profit to themselves and their employees.

The Breslin company, at Camden, New Jersey, started up February 1st on full time after a long period of idleness. The Williamson Mills at the same place have resumed with a larger force than a year ago. Both factories employ several hundred hands.

The Eagle Mills, at Little Falls, New York, and the Oregon Mills, at Peckskill, which have been shut down since last October, have resumed on half time, and the operatives who have been in enforced idleness are overjoyed.

As has been heretofore stated, some of the factories in the East will have to resume operations, whether there be high or low tariff, as people must have some of the necessities of civilized life if they have to beg or borrow means to procure them; but no real prosperity can reasonably be expected until there is more money in circulation.

The steel works of Pennsylvania and Ohio, which are not much affected by the tariff, as steel is now made in the

United States about as cheap as it is anywhere, are not working much more than half the time. Dozens of other industries, whose products are household necessities, are paralyzed by the depression caused by the demonetization of silver.

## NEWS FROM THE ISLANDS.

### Five Men Killed in a Riot at Santiago.

### Diamond Thief Captured.

### An Egyptian Nobleman Leaves Berlin and His Debts.

## ANXIOUS HAWAIIANS.

They Are Waiting News From the United States.

AUKLAND, N. Z., February 3.—The steamship Mariposa has arrived from Hawaii, bringing news to January 20th. When the Mariposa left Hawaii the people were restlessly awaiting the decision of the United States Congress.

The reported landing of the United States marines and sailors has no foundation in truth. It may be said there is no change in the situation. Pending the arrival of further advice from the United States, the newspapers which support the Provisional Government deny the right of the United States to restore the Queen.

Advices from Samoa, under date of January 27th, say Chief Malietoa has taken steps to bring the rebellious chiefs before the Chief Justice. It is added all immediate prospect of another war in Samoa is at an end.

## Valuable Nuggets Stolen.

BOISE, Idaho, February 3.—State Senator J. G. Watts is liable to become involved in a peck of trouble. He was Assistant Commissioner for World's Fair Commissioner Wells, and collected a number of exhibits. He told Wells he had some valuable gold nuggets in the Boise bank, which were held for security on a note, and which the Commissioner could display at the World's Fair if he would raise the note. He did so and Watts said he would redeem the nuggets before the Fair closed, and if not Wells was to be reimbursed by selling them. They were not redeemed and Wells sold them for about \$300. It now transpires that Watts borrowed the nuggets from a miner at Quartzburg, giving a bond for their return. The owner of the nuggets is now pressing the bondsman and the latter propose to go after the Senator with a sharp stick.

## A Noted Diamond Thief Caught.

NEW YORK, February 3.—A telegram received at the office of the Pinkerton Detective Agency from Hot Springs, Ark., contains the information that Fritz Dhiem, a notorious diamond thief, had just been captured.

The Pinkerton's have been hunting in Europe and America for Dhiem since November, 1891, when he stole \$150,000 worth of diamonds. The robbery took place at the railroad station at Dayton, Ohio, where Dhiem entered a car and stole a satchel containing gems from R. M. Kranig, a salesman from the Herman Keck Manufacturing Company of Cincinnati. The diamonds were recovered, the entire lot being found in four glass fruit jars buried on the farm of one Harless, at Jeffersonville, Ohio.

## rioting at Santiago.

VALPARAISO, February 3.—A mob of thirty men, supposed to be Balencedians, attacked the artillery barracks in Santiago yesterday, but were repulsed by the guard after a brief hand-to-hand encounter.

The attacking mob used daggers and revolvers. Five of the assailants were killed and one wounded.

Squads of soldiers and police were immediately posted in the vicinity and guarded all the streets to prevent the escape of the assailants, many of whom are hiding in the neighborhood.

There was great excitement during the attack. Many of the shops and business houses closed, but reopened their doors after a few hours' suspension.

## Arming Trainmen.

CHICAGO, February 3.—For the protection of the railway and express companies against loss on account of express robberies the Chicago and Great Western Railroad Company has decided to furnish the passenger-train hands and engine men with arms to enable them to offer resistance in case an attempt should be made to rob or molest their trains. The United States Express Company has volunteered to furnish firearms for this purpose, and in addition has agreed to handsomely reward train or engine men for any effort they may put forth to prevent any such robberies that may be attempted.

## Left His Debts Behind Him.

BERLIN, February 3.—Prince Assiz Hassan, a young Egyptian nobleman serving in the First Dragoons, has disappeared. The affair has created a sensation, as the Prince is well known in social circles. He had borrowed heavily of money lenders and had been notified by the Colonel of dragoons that he must arrange for the payment of the debts within a specified term. It is believed he was unable to comply with the requirement and has fled in company with an actress on whom he had lavished much money.

## A Bold Robbery.

SEATTLE, February 3.—A bold robber, with his head shrouded in a gummy sack, entered Villard's gambling house at Ballard to-night and gathered up several hundred dollars from the roulette table before the astonished players could offer any resistance.

## Telegraphic Notes.

Bar silver, 62.  
The New York banks at the close of business yesterday held \$111,624,000 in excess of the legal requirements.

George W. Childs, the founder of the Philadelphia Public Ledger, is dead. His fortune is believed to be very large.

Raymona A. Madera died in San Francisco yesterday at the Receiving Hospital from a fractured skull caused by falling down stairs.

P. C. Transtrip, a Danish expressman, hanged himself in San Francisco yesterday. Domestic troubles and drink was said to be the cause.

Chris. Evans was at Churchill, fourteen miles north of Visalia, night before last, from which place he wrote notes to two friends in the city.

In the House yesterday Bland presented a report on the bill to coin the seigniorage bullion in the Treasury and gave notice that he would call it up at the first opportunity.

Chairman Wilson of the Ways and Means Committee and also Chairman of the National Association of Democratic Clubs, has called a meeting of the latter to be held in the city of Washington February 8th.

At San Francisco yesterday Judge Belcher sentenced Patrick J. Collins to death. The prisoner, when asked if he had anything to say, said he was innocent, that he had not had a fair trial and that he was being railroaded to the gallows.

## KENNEDY DISTRICT.

A Day of Rejoicing in a Humboldt Mining Camp.

A correspondent of the Silver State writing from Kennedy district says:

"On the morning of January 26th our busy little camp was aroused from its reverie by the loud, shrill whistle of our new mill, being a welcome signal to the miners that it was almost ready to commence hammering out the yellow metal—that it was no longer necessary that they should haul their ore sixty miles by team and ship it by rail three or four hundred miles to get it worked; but could have it worked at home, and while the citizens of Kennedy and vicinity rejoice over the successful enterprise they should not fail to give two of Kennedy's business men their due credit. First, to C. E. Kennedy for the discovery and his perseverance in opening up the camp; second, to William Jenkins for his enterprise and push in showing the confidence he has in the camp and by investing his money. All should join to make it further successful, keeping the mill supplied with ore; for the future of the camp depends on the success of the mill, and as Mr. Jenkins has done his part nobly, let the miners do theirs equally as well. The pulling of the cord of the whistle for the christening was delegated to one of Kennedy's brightest, most beautiful and most charming little girls, Hazel Wilkinson.

The schoolhouse, which has been in course of erection here, was completed also on the 26th, and a grand ball and supper were given by the ladies in honor of the two events and all joined in making merry until the "wee sma' hours." The schoolhouse is a neat frame structure 16x20, and a credit to the place, which speaks well for the liberality of the people in their donations. We should not forget the credit that is due the two ladies who did the soliciting, and who are Mrs. W. L. Wilkinson and Mrs. P. Sweeney, and also our worthy trustee, P. Sweeney, who interested himself greatly in this successful work. The building stands a grand monument of what determination and energy can do."

W. H. Chandler has driven a band of 150 fat steers here from Uncle Jake McKissick's ranch in Long Valley. The cattle have been sold to James Miller, of Long Valley, the price being \$37.50 per head. They will be fed on the meadows until shipped.

## A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'"

"In 1888, my affianced was nearly bald, and the hair kept falling out every day. I induced her to use Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarum, Bastrop, Tex.

## A CURE FOR PNEUMONIA.

The Recipe of an Old Physician.  
A correspondent sends the following as a tried and true cure for pneumonia: Take six to ten onions, according to size, and chop fine, put in a large spider over a hot fire, then add about the same quantity of rye meal, and vinegar enough to form a thick paste. In the meanwhile stir it thoroughly, letting it simmer five or ten minutes. Then put in a cotton bag large enough to cover the lungs, and apply to the chest as hot as the patient can bear. When this gets cool apply another, and continue by reheating the poultices, and in a few hours the patient will be out of danger.

This simple remedy has never failed to cure this too often fatal malady. Usually three or four applications will be sufficient, but continue always until the perspiration starts freely from the chest. This recipe was given many years ago by an old physician of large experience.

## The Senate and the Wilson Bill.

A canvass of the Senate shows that 38 Republicans oppose the Wilson bill in any form; 7 Democrats and 2 Populists oppose it in its present form, and 36 Democrats and 2 Populists favor the bill.

Four Republicans favor an income tax, if a separate measure; 24 Republicans and 10 Democrats oppose the income tax, while 10 Republicans and 11 Democrats are non-committal.

The Auditor of the Exposition company in his statement of receipts and expenditures up to January 12th shows that \$26,746,430 had been expended on the World's Fair. The net assets are given at \$1,298,707. If there were no further expenditures to be incurred this would represent the sum available to be returned as dividends on the stock. The capital stock of the company, including the \$5,000,000 given by the city of Chicago, is \$10,606,496, so if the whole surplus were distributed the stockholders would receive eleven cents on the dollar.

The public debt statement shows an increase of \$7,830,064. This means more bonds unless the Bland bill to coin the seigniorage on the silver bullion in the Treasury becomes a law.

The last few nights have made ice up the river.  
Hon. Wm. Woodburn went below last evening.

The west-bound passenger was four hours late last evening.

Hon. George Russell returned to his home in Elko yesterday morning.

A Chosen Friends Lodge is to be instituted in Mason Valley shortly.

St. Patrick's Day, March 17th, will be Ireland's Day at the Midwinter Fair.

Tim Dempsey of Carson was a through passenger last evening for tide water.

D. L. Bliss and D. A. Bender arrived yesterday morning from California and changed cars for the Capital City.

O. T. Bender of the First National Bank has gone to California. He will visit Los Angeles during his absence.

The *Lyon County Times* says it is reported that J. H. Rae, Jr., has tendered his resignation as superintendent of the Dredge Co.

Capt. J. B. Overton, Superintendent of the Virginia and Gold Hill Water Works, came down from the Comstock last evening and changed cars for California.

Senator John P. Jones is expected to visit the Comstock in about ten days unless he is summoned to Washington to take part in the fight against the tariff bill in the Senate.

Mrs. B. F. Currier, wife of District Attorney Currier, and children, accompanied by her mother, who has been visiting in Reno for some weeks, departed for San Francisco last evening.

Colonel Thomas confirms the statement that he has resigned the Superintendency of the Sutro tunnel, his resignation to take effect April 1st. He has filled the position with credit for 14 years.

Friday night a meteor about as large as a wash tub fell near a telegraph office on the line of the C. & C. railroad, striking the earth with a force sufficient to throw the operator out of his chair.

The difference between the receipts at the Reno Postoffice for the last ten months only differ 18 cents from the receipts for the corresponding period of 1892 and 1893, notwithstanding the dull times.

Congressman Bland, from the House Committee on Coinage, presented a favorable report on the bill to coin the seigniorage of \$5,000,000 on silver, and gave notice that he would call it up at the first opportunity.

George W. Childs, proprietor of the Philadelphia *Ledger*, died yesterday aged 73 years. He was known throughout the United States as a philanthropist, who loved his fellow man and lived to do good. He acquired considerable wealth, and, notwithstanding his liberality, left, it is believed, several millions. He will be missed by the poor of his city for whom his purse was always open.

### UNDER THE DOME.

Those Federal Office Holders—An Anomalous Condition of Affairs—No Opportunity for Nevadans in the Department.

I have noticed with some degree of interest that a little item of information, has escaped from the shadow of secrecy surrounding the operations of our great and just Government at Washington, and is being copied with some degree of surprise in Nevada papers. Experience in Nevada life, especially political life, teaches one that office is something dear to the Nevada man as well as to those of the other States of the Union and it must be with no little degree of surprise that it is learned that in this city there has been paid out annually over \$35,000 to Federal office holders representing the State of Nevada, a sum greater than the mint patronage, greater than the State patronage, greater than the county patronage, which cuts such a potential figure in Nevada politics. Over the dispensing of Federal and State patronage, more political pledges have been broken, more political honor prostituted, more souls embittered by disappointment than by any other factor which ever entered into politics.

It went out through the Associated Press dispatches that Nevada had 21 places and was only entitled to eleven. This is partially true. The real fact is Nevada has representing her 35 men and women, but two of whom ever to my knowledge saw the State of Nevada.

### WRONG WITHOUT REDRESS.

The purpose of this letter is to call the attention of the people of Nevada not only to the injustice of the existing State of affairs, but to warn them of the uselessness of attempting to either oust those in office or to obtain places Nevada is entitled to only eleven places. She has thirty-five. This speaks well for the influence of two United States Senators, who have represented us for over twenty years. Those who are in, are there under the protection of a system of civil service as vicious as it is fraudulent. The others are under the protection of the Democratic party. They are there and they will stay. It is impossible to obtain recognition for Nevada applicants for office in this city because we are over represented. So do not be led into the believing that because there are thirty-five places here that either others can be obtained or those not representing us can be removed.

How they got here your correspondent well knows. There is some disadvantage of living west because as a rule we know little of what is going on and how it goes on here. Your correspondent is Nevada raised and Nevada to the backbone, whose present interests are in Nevada and whose future hope is there anchored. Starvation would have stared him in the face had he waited to come under the benefit of Governmental protection. Nevada was entitled to these places, she ought to have had them and her young men and women could have received the advantages of education here offered.

### TO TURN TO THE CIVIL SERVICE

You are at once met with the information that for two years no appointments can be made to Nevada as she has an excess of them now. To seek aid from Senatorial influence you are met with the information, which is too true, that the administration is against silver men and western interests and every thing not in strict accord with Grover Cleveland, otherwise the Democratic party. It can be stated that there are now several Nevada people in Washington and their experience ought to be sufficient to keep others away for the present or to discourage any application as it is an absolutely political impossibility to obtain a position.

### A REVELATION PROMISED.

In some future letter your correspondent will, with pleasure, reveal some of the peculiar ways in which our State is represented by the Easterner. Another salient feature to be noticed, which seems like the irony of fate, is that Mr. Roux, one of the two Nevada people, lost his place with the incoming administration and that the other one, Mr. Norcross, would have fared no better but for his efficiency and value to the office he represented, whose technical information another could not have supplied. It is also a singular fact that Mr. Norcross, truly Nevada in every sense, receives a much smaller salary than many who represent the State and do less work and of a less difficult nature. He has represented the State in a way highly creditable to himself and owes his present position to his ability, efficiency and skill, and it is a shame that the same influence which has placed \$35,000 at the disposal of outsiders has not had him promoted to a salary commensurate with his duties, Mr. Carroll D. Wright, a gentleman of ability and experience, who is at the head of the Census office, speaking of his work placed it among the best in the office. Yet, Mr. Norcross, whose ability, education and experience, whose integrity and manhood entitled him to any position of trust that the people of his country would willingly bestow on him, whose aim is to fit himself educationally that he may make a more valuable and desirable citizen, remains unrewarded while others claim the rewards which are our due.

### NEWLANDS EXTENDS A HELPING HAND.

It is to be said to the credit of our present Representative in Congress, Francis C. Newlands, that he is the first to extend a willing hand to Nevada young men in this city. And the people of Nevada may rest assured that what the State may be entitled to will, as far as he is able to direct it, be given her. For the first time in twenty

years, Nevada young men have been assisted and it was due to his generosity, and to his spirit of justice in behalf of the State, that what little falls to a Congressman's lot in the way of clerical duties, public documents and seeds have gone to Nevada and Nevada people alone.

### A SEARCHER FOR LIGHT.

He seeks information and gets it.

Mr. JOURNAL EDITOR:—A few days ago I noticed some comment on the attitude of the several political parties in relation to the remonetization of silver, and not being sufficiently posted on most of the economic and financial questions before the people, I fear I do not fully grasp the situation, hence, if you have time and inclination, I am sure you will supply a long felt want by answering. For instance, in one issue you suggested that the Silver party of Nevada was in favor of bi-metalism 16 to 1; at another time you say, in criticizing the manifesto of the Republican club, that the Republicans are for silver 13 to 112, and at still another time, some weeks ago, you intimated that the Democrats were in favor of the metal 79 to 154. Now much of this is Greek to most laymen like myself. I have conferred with some of my neighbors and tried to get a solution. Among others I met Tom Hymers and asked him in a friendly way, for we are old cronies, and I know he would help me get the combination if he could. I said, "Tom, tell me what Old Kelley means by asserting that the Silver party is for silver 16 to 1?" At first he looked wise and I was sure he had it, but after a reverie, such as he has sometimes, he simply said, "Damned!" I next tried him on the Republican riddle, thinking that as he was one of the charter members of the club he would be pleased to give me details, so I said, still in my most winning way, "Thomas, what does Old Kelley mean by asserting that the Republican party is for silver 13 to 112?" To this query an answer came like the belch from a smooth-bore cannon, "Beck, that's a damier!" This settled me, even though the question is left open. I wanted to ask next about the relative merits of the Democratic combination figures, but my desire for knowledge died within me. Our relations are now strained; indeed, we scarcely speak as we pass by.

### AN INDIAN ROW.

A Game of Indian Poker Results in a Stabbing Affray.

Friday afternoon a group of Indians were near the V. & T. railroad bridge indulging in the game of draw poker. A squaw won two bits from an Indian called Dexter, who offered her a dollar in payment. The party did not have the requisite amount of change, so another Indian volunteered to get the dollar changed. He did not return for some time, and when he did he was well loaded with fire water. The husband of the squaw who had the quarter interest in the embezzled dollar objected to the matter and a free fight ensued, during which Dexter was badly stabbed by another Indian called "Bobo." The latter made good his escape, while "Dexter" is in a precarious condition at the county hospital.

Carson River Dredging Co.

Peter Forrester, President Carson River Placer Mining and Dredging Co., and Mr. Pierson Halstead of New York paid Dayton a visit this week to look over the plant and make calculations for future operations. They were well pleased with the outlook for the enterprise and contemplate some extensive work here this coming summer. Among other possibilities is an electric plant to operate the machinery of the dredge plant. If things turn out as expected, Dayton may be quite a lively little camp this year.—Dayton Times.

## Well and Happy

Thanks to Hood's Sarsaparilla—Dull Headaches—That Tired Feeling.

Mr. W. H. Toles, San Francisco, Cal.

"One of the greatest mistakes people make is to lock the door after the horse is stolen, or in other words, to wait until they are sick in bed before they do anything for the poor body. Neither my wife nor myself were real sick; I attended to my business, and my wife to her household duties daily. But we had dull, heavy headaches, and a little over-exertion would tire us greatly, and my appetite was very poor. So we took three bottles of Hood's Sarsaparilla, and the result was perfectly satisfactory. I believe Hood's Sarsaparilla
